NovaFin Business Loan — Eligibility & Document Rules v1.1

Minimum eligibility

Applicant must be an adult and legally able to enter into the relevant agreement.

Business must have operated continuously for at least 24 months.

Applicant must provide sufficient information for identity, business and financial verification.

Requested loan amount must fall within the product's available range.

Applications are subject to internal assessment and verification.

Required documents

Identity proof such as an accepted government-issued identity document.

PAN or applicable tax identification information.

Proof of business existence/registration, where applicable.

Recent business bank statements or other financial records requested during assessment.

Additional documents may be requested depending on the application.

Eligibility decision examples

Business operating for 36 months: meets the stated business-vintage requirement, subject to other checks.

Business operating for 18 months: does not meet the stated 24-month business-vintage requirement.

Requested amount of ■1 lakh: below the stated minimum product amount of ■2 lakh.

Requested amount of ■30 lakh: above the stated maximum product amount of ■25 lakh.

Missing documents: do not mark the customer as rejected solely because documents are missing; request the missing information or escalate according to the workflow.

PII handling rule for the prototype

Do not place unnecessary customer identifiers inside retrieval chunks.

Synthetic application records used for testing should be clearly marked as synthetic.

Sensitive fields should be masked or excluded from logs whenever they are not needed for the task.

The knowledge base should contain business rules and product information rather than individual customer records.
