# NovaFin Business Loan Products — Product Guide v1.2

## Document purpose

This is a fictional training document created for the AI Engineer assessment. NovaFin is a fictional lender used only for the prototype.

Pricing, approval and eligibility information in this document is illustrative and must not be treated as real financial advice.

## Product: NovaFin Business Growth Loan

Purpose: Working capital, inventory purchase, business expansion, equipment and other approved business purposes.

Loan amount: ■2,00,000 to ■25,00,000.

Tenure: 12 to 60 months.

Repayment: Monthly instalments through the approved repayment method.

Basic business vintage requirement: At least 24 months of continuous business operations.

Indicative assessment time: Initial assessment may be completed within 1–2 business days after the required information is received. Final approval depends on verification.

Interest/pricing: Customer-specific. Final pricing depends on the applicant profile, requested amount, tenure, business information and internal assessment. Do not quote a guaranteed rate before assessment.

Security: Security/collateral requirements, if any, depend on the application and approved product terms.

## Indicative product information

[('Item', 'Information'), ('Loan amount', '■2 lakh – ■25 lakh'), ('Tenure', '12 – 60 months'), ('Minimum business vintage', '24 months'), ('Initial assessment', 'Typically 1–2 business days after required information is received'), ('Pricing', 'Customer-specific; not guaranteed before assessment')]

## Important communication rules

Do not promise loan approval.

Do not promise a specific interest rate unless it has been formally generated by the approved pricing process.

If information is not present in the knowledge base, tell the customer that the information is not currently available and offer human follow-up.

Final approval is subject to verification and internal assessment.
